“ We went through Navy Chief’s in initiation together, even though we had not know each other at the time. I was in San Antonio reserve center, and she was in Austin, but the Austin people came to San Antonio cause they didn’t have that many being initiated. We put two and two together when we were working at CORE together for two years.

We were both Chief Petty Officers in the United States Navy, and both quartermasters. We also work two years together at building two / maximum security mails, as Sergeant. I enjoyed every minute that we worked together for those four years. We kind of clicked and thought the same way. I remember one time we were sitting in our little bitty tiny Sergeant’s office at building two and she was going through paperwork and handing me stuff, however, I was sitting right next to the shredder so I figured she wanted all that paperwork shredded. It ended up that I had to ship finder and she wanted the paperwork put into the training portion. She didn’t get upset. We just had a heck of a laugh out of it. She will be missed and see her in heaven. Mark D Jones Sergeant TCSO/ sergeant Retired

My condolences. She was my sergeant at the county for several years. She was always good to me and a great person. She showed us how to be accountable and to lead. Sometimes when you needed her to talk to a personal level she was there to listen. May her soul rest in peace.
